

for LIFE

maximum uptime | unmatched reliability

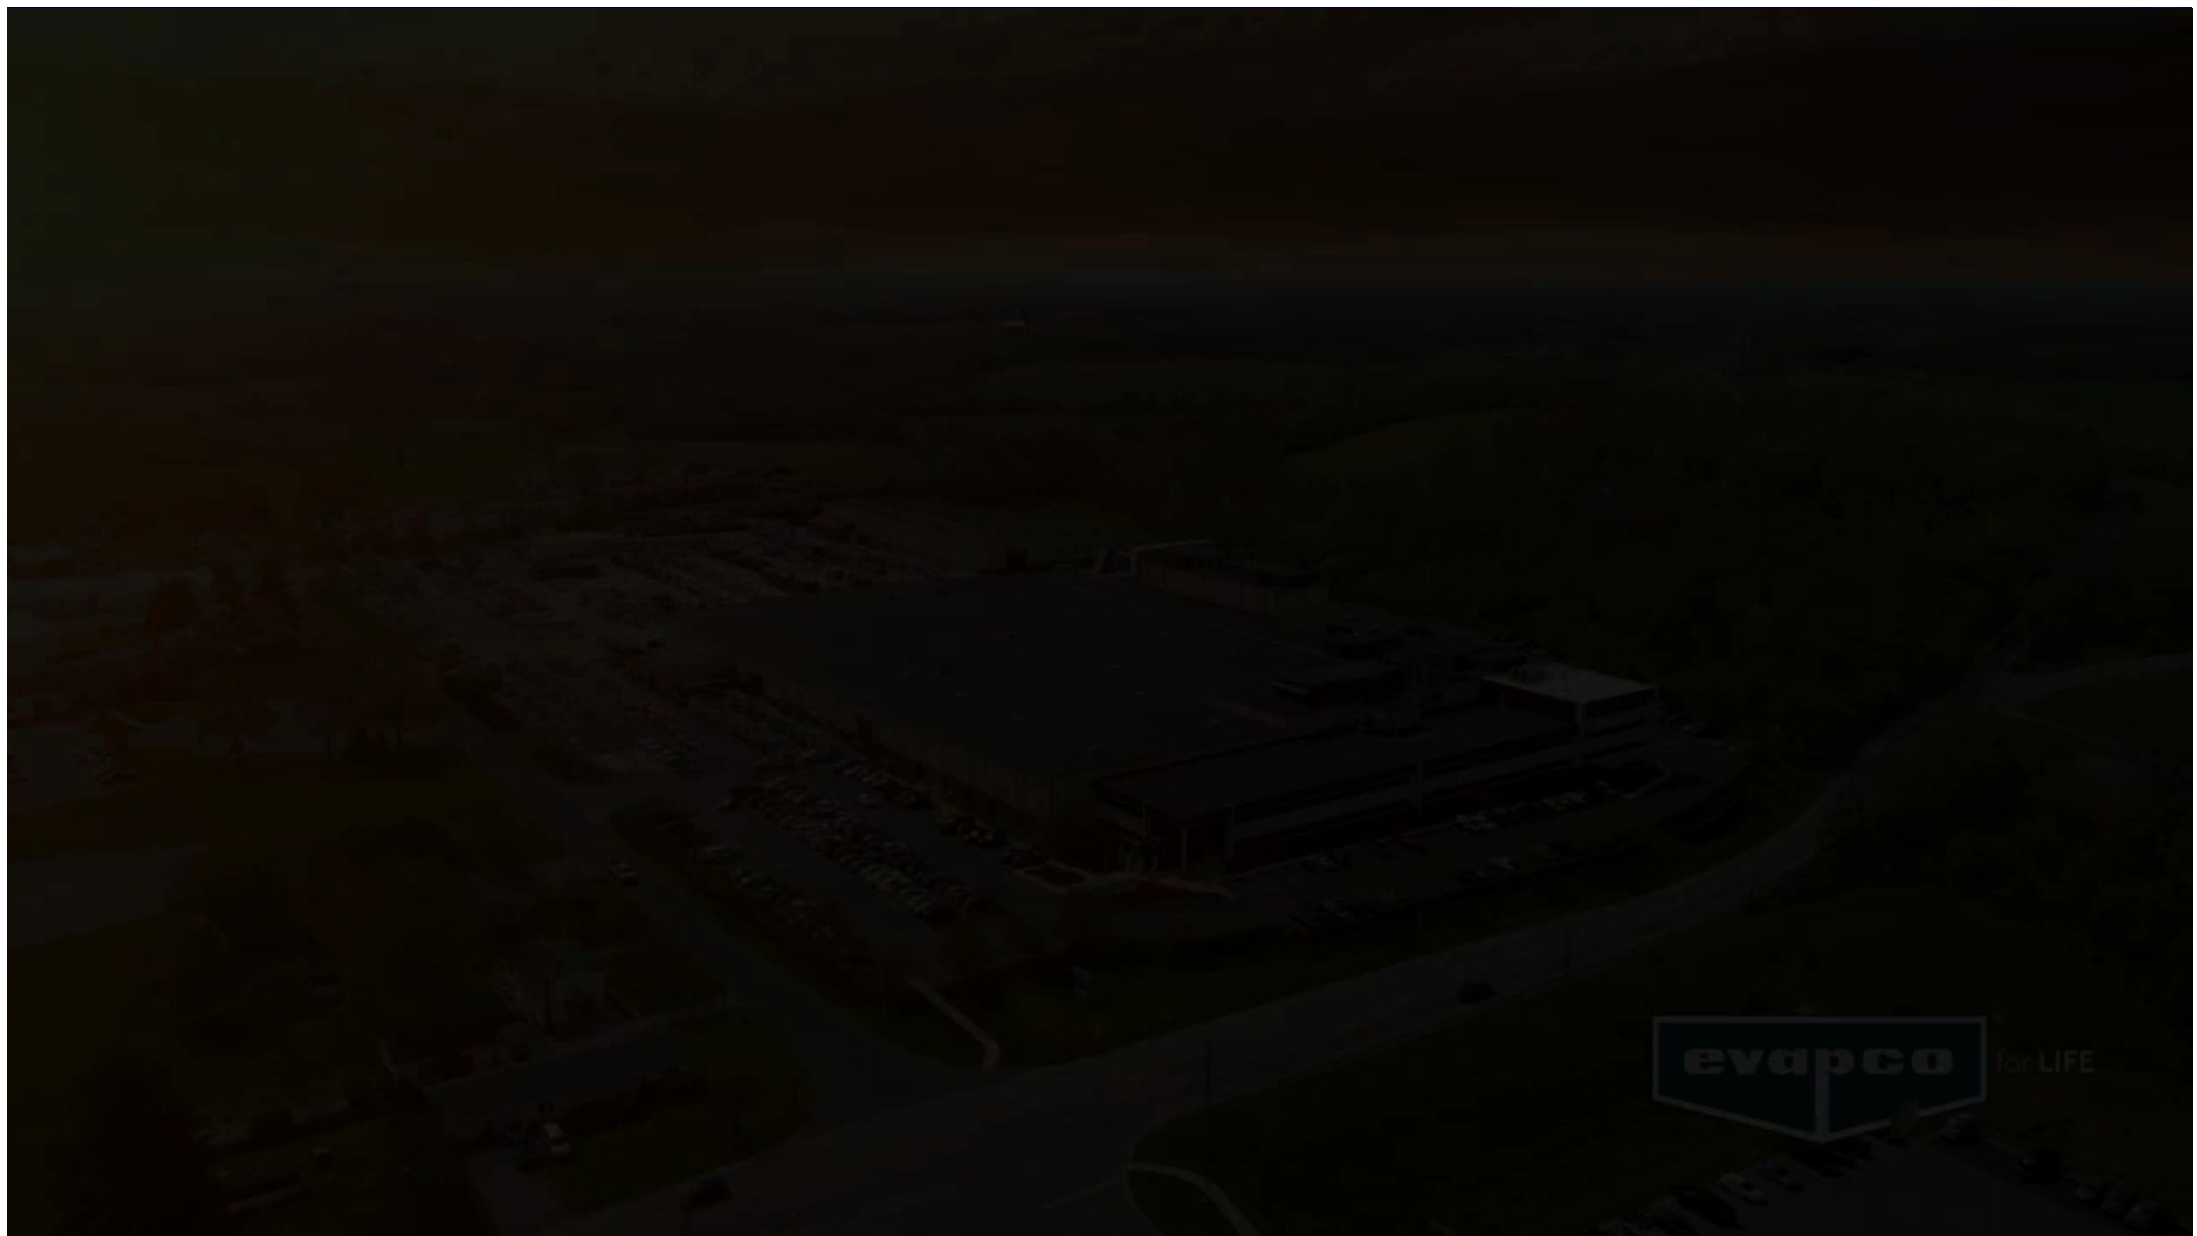

James Horsnell

Export Sales Director
EVAPCO Asia Pacific

By Prince Pal

Invested in factory improvements

Enhanced product quality

Reduced delivery lead times

Research – development - innovation

23

Manufacturing facilities

11

Countries

ATC-E

Advanced Technology Condenser

Single cell capacities to 13,000kW

Robust axial fan system

IBC structural designs

FM approved construction

Broadest range of models

Energy efficient designs

Evaporative and hybrid

PHC-E

Parallel Hybrid Condenser

Single cell capacities to 7500kW

Multiple fan redundancy

Hybrid dry operation

Fast section rigging

Maintenance access options

Scale reducing accessories

Pressurised spray system

Elliptical tube coil

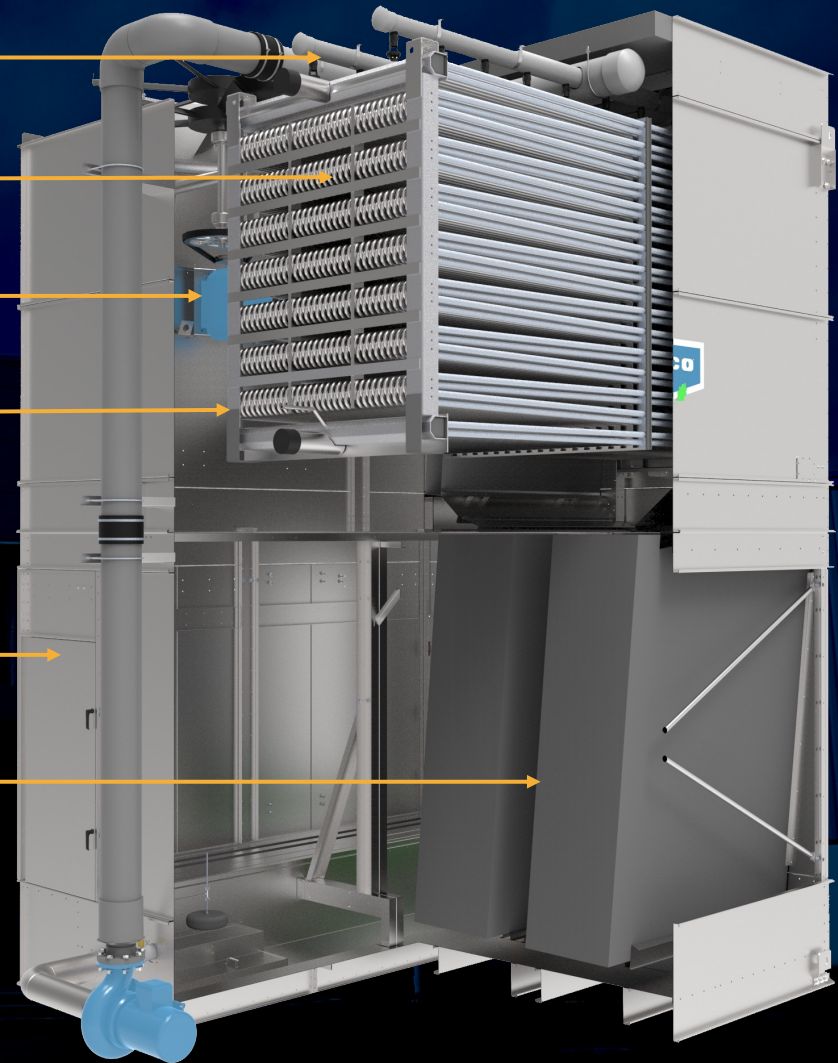

Low kW Axial fan drives

High efficiency eliminators

Large access door

Cross-pak fill blocks

PHC-E
Parallel Hybrid Condenser

PMRC

Performance Maintenance Reliability Condenser

Single cell capacities to 5300kW

Multiple fan redundancy

Maintenance at ground level

External service platform

Low energy alternative

55%

Lower fan motor kW

High efficiency drift eliminators

Pressurised spray system

Elliptical tube coil

Large access doors

Low kW axial fan drives
