## EXHIBITORS-ARCON 2026

Active Engineering Services

Bombay Ammonia &  
Chemical Company

GEA Process Engineering  
(India) Pvt. Ltd.

Jyoti Engineers &  
Constructions

Krypton Corps Pvt. Ltd.

Klüber Lubrication  
India Pvt. Ltd.

Mysore Ammonia &  
Chemical Ltd.

Neptune Refrigeration

PM Refrigeration

PVR Controls

Refcon Engineering Services  
Pvt. Ltd.

Star Cooler & Condensers  
Pvt. Ltd.

## PRESENTATION ABOUT AAR

### Haresh Rupchandani AAR President (2025-2026)

#### Introduction :

- Over 35 years of professional experience in Industrial Refrigeration covering Sales, Engineering, Customer Relationship, Product Management with technology leaders York, Frick, USA, Sabroe and Mayekawa.
- Continuing to serve the industry as Associate Director, Applications Engineering, Industrial Refrigeration, Global Products & Solutions, Johnson Controls, India.

#### Previous Professional Experience

- Business Unit Head, Industrial Refrigeration, at Johnson Controls India P. Ltd.
- Senior Manager at Mycom Refrigeration India P. Ltd.
- Manager- Marketing at YORK India Limited (SABROE Refrigeration)

#### Volunteer Experience

- Past President at Association of Ammonia Refrigeration (AAR), India – 2015
- Current President at Association of Ammonia Refrigeration (AAR), India – 2025

## **ARCON 2026: CHIEF GUEST**

**Mr. D. Sunil Reddy,  
Managing Director,  
Dodla Dairy Limited. India**

## **Mr. D. Sunil Reddy, M.D., Dodla Dairy Limited**

### **Introduction:**

Sri D. Sunil Reddy, son of Sri D. Sesha Reddy, aged 57 years, hails from an agricultural family in Nellore District, Andhra Pradesh. He is an Industrial Engineer from Manipal Institute of Technology (MIT), Manipal, and has a natural inclination toward agriculture and allied activities.

He forayed into the dairy industry in 1997 by establishing a milk processing facility near Nellore, Andhra Pradesh, under the name Dodla Dairy Limited.

### **Professional Journey and Contributions**

Since inception, Sri Sunil Reddy has taken complete responsibility for the growth and development of the organization. He has been actively involved in:

Leading and directing the company towards adopting new technologies.

Exploring new avenues for consistent growth and sustainability.

Providing resources and ensuring the translation of ideas into reality year after year.

Taking strategic business decisions by carefully analysing both internal and external environments of the global dairy industry.

Introducing various advanced technologies and driving several Change Management initiatives across the organization.

Recognizing the importance of backward integration, he launched the Dairy Farming Division in 2009 at Pulivendula, Andhra Pradesh. His conviction for farmer welfare and environmental protection has been unparalleled in the industry, evident from the company's various farmer-friendly and eco-friendly initiatives over the past decade.

## **Mr. D. Sunil Reddy, M.D., Dodla Dairy Limited**

### **Introduction (cont'd):**

#### **Growth and Global Presence**

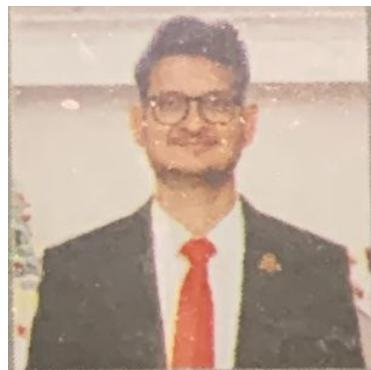

Under his visionary leadership, Dodla Dairy has grown into one of India's leading dairy companies, currently: Providing direct and indirect employment to over 7,000 people across 240 locations in India. Expanding operations to international markets, including Uganda and Kenya.

#### **Awards & Recognitions**

Sri Sunil Reddy's dynamic leadership has earned Dodla Dairy several prestigious awards:

- Business Leader Award – 2015
- Business Excellence Award – 2018
- Outstanding Performance Award – CII
- SEEM Energy Award – 2020
- Emerging Company Award – 2021
- Best Food Tech Brand of the Year – 2022
- South Indian Business Award (SIBA) – 2023
- National Safety Council (NSC) Appreciation Awards – 2023, 2024 & 2025

## **ARCON 2026: GUEST OF HONOUR**

**Mr. Gubba Prashanth,  
Founder and Design Head,  
Gubba Cold Infra Consulting. India**

## **Mr. Gubba Prashanth, Founder and Design Head, Gubba Cold Infra Consulting. India**

### **Introduction:**

Gubba Prashanth is owner of Gubba Cold Infra. Before Gubba Cold Infra he has been the technical head of Gubba Cold Storage for 2 decades and has been instrumental in making Gubba Cold Storage one of india's biggest cold storage company. Prashanth Gubba now heads and manages Gubba Cold Infra which is into Designing and building world class cold storages. He and his company have already set up cold storages in 9 states around the country. He is the only cold storage design & build company which has immense user experience too. His company makes turnkey cold storage projects for Food, Pharma & Agri sectors.

Prashanth gubba has been selected by USTDA to be part of a delegation to represent india to witness the cold storage industry of USA. Prashanth gubba also runs an NGO called Food Santa which feeds around 800 people everyday. He is married to Rajyalakshmi Gubba and is blessed with 2 sons Krishiv and Amogh.

# ARCON 2026: TECHNICAL SPEAKERS

## Global Trends in Low-Charge Ammonia Technologies and Refrigerant Policies

**Mr. Kurt Liebendorfer**

*Vice President, Business Development,  
Industrial Refrigeration,  
Evapco Inc., USA*

## Ammonia Refrigeration and Process Safety Management

**Mr. Kushal Aurangabadkar, CCPSC,**  
*Engineering Manager,  
Cargill Inc., USA*

## Sustainable and Efficient Ammonia Refrigeration for Food Industry

**Mr Hiroyuki Egashira,**  
*CEO,  
Frick India Ltd.*

## Ammonia Heat Pumps, developments in Compressors and improving Energy Efficiency

**Mr. Ron Hoffmann,**

*Product Manager, Screw Compressors,  
GEA Refrigeration GmbH, Germany*

## Improved Efficiency in Ammonia Refrigeration Systems through Digital Solutions and Remote Monitoring

**Mr. Rob Weeder**

*Service Business Development Manager  
GEA Refrigeration Netherlands N V*

## **PRESENTATION BY PLATINUM PARTNER**

**BY MR. COLIN BLOCK, MANAGING DIRECTOR, EVAPCO ASIA PACIFIC**

## **Kurt Liebendorfer**

### **Vice President – Business Development, Industrial Refrigeration, EVAPCO Inc. USA**

#### **Introduction:**

- Kurt Liebendorfer is Vice President at Evapco and is located at its corporate headquarters near Baltimore, Maryland USA. He is leading the development and deployment of Evapco's packaged refrigeration solutions including the Evapcold low charge NH<sub>3</sub> family of products & Evapco-LMP CO<sub>2</sub> modular industrial refrigeration solutions. These Natural Refrigerant solutions are rapidly being adopted by the marketplace and helping to solve global warming issues, while providing operational reliability, high energy efficiency and economies of scale.
- Kurt has been in the industrial refrigeration, process cooling and construction industry for 40 years working for both manufacturing and construction companies including Johnson Controls/Frick and GEA. He is currently serving on the board of directors for the Global Cold Chain Alliance and IIAR and is an established leader in refrigeration technology and innovation.

## PRESENTATION BY TITANIUM PARTNER

## **FELICITATION OF SPECIAL GUESTS, SPEAKERS, PARTNERS AND EXHIBITORS**

**LUNCH BREAK  
&  
TIME TO VISIT EXHIBITION HALLS**

## **PRESENTATION BY GOLD PARTNER**

## **Kushal Aurangabadkar** **Engineering Manager, Cargill Inc. USA**

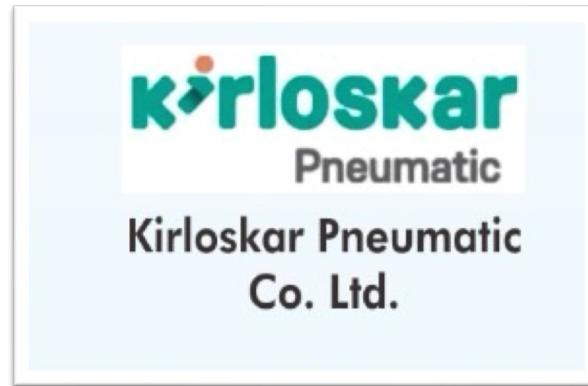

### **Introduction:**

- Kushal Aurangabadkar CCPSC is an experienced engineering manager specializing in ammonia refrigeration systems and process safety management (PSM). With over 12 years of industry expertise, he has led safety and reliability programs at major U.S. food facilities.
- Kushal is actively involved with RETA (as a member of the Education Committee) and played a part IN 2025 review of Industrial Refrigeration Book 1 & 2 and with IIAR, where he serves on the Standards Subcommittee for IIAR 2 and was recently invited as a speaker.

## **PRESENTATION BY GOLD PARTNER**

## **PRESENTATION BY GOLD PARTNER**

## Hiroyuki Egashira C.E.O., Frick India Limited
